

## SURGICAL APPROACHES TO THE PELVIS & ACETABULUM DVD ORDER FORM

**Surgical Approaches to the Pelvis & Acetabulum is a brand new 2 part DVD set produced by OTC South Pacific.**

Featuring cadaveric dissections performed by Prof. Bogdan Solomon in collaboration with Prof. Tony Pohl and Prof. Mellick Chehade from the Royal Adelaide Hospital, this DVD set clearly demonstrates the required surgical dissection for the following approaches (as seen on the Advanced Fracture Management Course):

- Ganz Surgical Dislocation of the Hip
- Kocher-Langenbeck Approach
- Posterior Sacral Approach
- Symphysis Pubis Approach
- Stoppa Approach
- Iliofemoral Approach
- Ilioinguinal Approach

With high quality video and voiceover, the ability to select and replay the segment of your choice, this video is a powerful learning tool for all orthopaedic surgeons and trainees who wish to familiarise themselves with these approaches.
